anthrax paper / Kaplan

If it had not already occurred to you —
do you think it would be useful to
send a copy of the translation of the
recent "paper" on anthrax to Martin
Kaplan at Pergueshi/Zimmer?

Is this the "white paper" that this
ambassador referred to in conversation
with Martin?

The paper mentions "forced slaughter
of cattle: I presume of anthrax-infected
animals; and further the hint that these
somehow got onto the black market!

Absolutely, if true, they might be loath to
admit — but an offense worthy of
capital punishment in their system!
Not even any prosecutions?
